# Welcome Note

'Unity in Diversity' is our school slogan

It's in our lives every day as we embrace our friends,

It's in our understanding as we try to make amends.

Our exciting umbrella activities make learning really fun

And we enjoy our field-trips when we go out in the sun

We go on immersion and make new friends from far

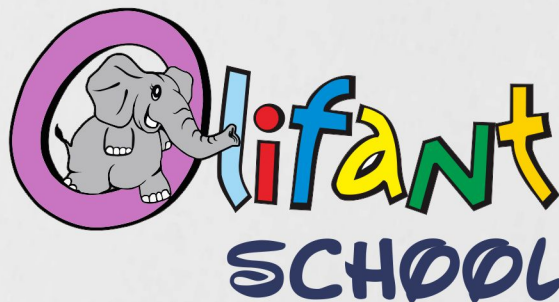

We learn the most important thing is just being who you are

We learn to be enterprising when we hold  
our auxibition

We learn that everyone is different and we all need each other

It makes us realize that

In Olifant everyone is my brother (or sister!)

## OLIFANT SCHOOL VISION

To be a pioneer who provides a modern learning environment for the students to cultivate and prepare them selves to be competent citizens compete in the global community.

## OLIFANT SCHOOL MISSION

Facilitates students to develop their competencies to collaborate in a global world with sociopreneur spirit.

Become a catalyst for change in the field of education and give a positive impact for the community.

Provide an opportunity for educators to grow personally and professionally and make meaningful contributions to the world of modern education.

Collaborate with parents so that they can become full partners in educating and preparing their children to be competent and ready to thrive locally and globally.

## OLIFANT SYMBOL ELEPHANT

As an animal well-known for its cleverness and its ability to work well individually and collectively, the elephant was chosen as our logo. Olifant aims to prepare each child to compete in the current global world. Each child will be nurtured to be both an excellent individual worker and also learn to work in a team. These are two characteristics that lead to success.

### OLIFANT ELEMENTARY MOTTO: **UNITY IN DIVERSITY**

"Unity in Diversity" is not just a slogan to us. It's a way of life. As an Olifant Elementary student, even if we come from different backgrounds, beliefs systems, or have different ways of doing things, there are certain fundamental goals that should unify us all. When we realize this, we'll have greater strength. Once we decide to work with - and not against - each other, it starts to become clear that unity creates power.

#### THE 3ES

- |                    |  |
|--------------------|--|
| [Exploration]      | We enable children to discover new things, so they gain new knowledge and understanding through their practical daily activities.  |
| [Enrichment]       | This extra curricular program offers a variety of applied activities to enrich student learning experience in the arts, sports, culture and language, as well as science and technology. |
| [Entrepreneurship] | This allows children to build and to apply curiosity, perseverance, independence, compassion, and awareness within their surrounding environment.  |

## Four Aspects Of Total Well-being

Olifant is designed to assist and develop all aspects of a child's growth through learning. Focusing on the physical, spiritual, emotional and mental well-being, **the programs also focus on developing science and math, motoric skills, social (life skills), and multicultural and multilingual skills.**

Some key aspects of our program include :

- Learning under the guidance of adults other than their parents
- Socializing with peers from various cultures
- Learning the importance of moral values and ethics, learning about simple problem solving, empathy, and working with friends
- Enhancing creativity, encouraging risk taking, and responsibility to accomplish personal goals
- Having regular health check-ups and a school lunch which provides a daily balanced diet
- Introducing the scientific method and analytical thinking processes
- Creating awareness of their place in the community and society

All the concepts that are taught in Olifant are building blocks to help your child get ready to be a good learner for their whole life.

## International Learning Method

- An international perspective is not only about the language used in delivering the lesson but also the methodology
- An **“active learning”** method is applied, giving children a chance to learn in a small class based on their style and space of learning and understanding
- At Olifant we see the importance of using **up-to-date technology**, including computer based learning and internet resources
- We use the active learning method at Olifant : **“Playing means Learning”**.  
Your child will learn a lot from our educative games that are designed to teach a variety of skills in a fun way
- We provide education with a strong emphasis on the **importance of moral values and culturally appropriate behaviour**
- Our learning program has a blend of the four aspects of learning: cognitive, psychomotor, psychosocial (life skill), and culture and language.
- We provide on-going supervision on of each child's development (individually and collectively)
- At Olifant **all religions are welcomed, all languages are accepted and all people of different colours and cultures are invited to enjoy and experience the Olifant culture**
- We present a challenging curriculum that is suited to each stage of a child's development
- Children are exposed to the natural environment as our home and a place of learning.

## Adapted To The Local Culture

At Olifant, each child is introduced to the local culture as well as being exposed to other cultures. Olifant classes have different cultural themes introduced monthly. This early exposure to diversity will lead your child to become someone who can easily adapt in an ever-changing world. They will each fully understand their own culture as well as develop a profound respect for others.

Our programs are designed to expose the children to different cultures and religions and give children a chance to participate in cultural and religious events that reflect contemporary issues, both nationally and globally.

# BUILDING

## AS A SECOND TEACHER

The main idea of the design was to enhance the learning experience from the building itself

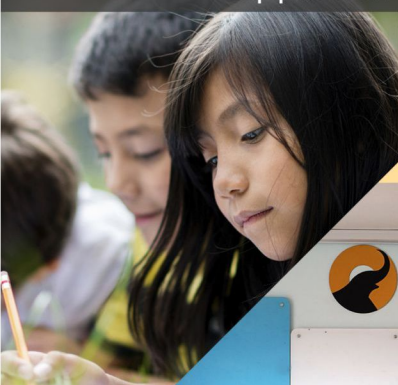

Flexibility to learn through room connection  
Learn through colour, texture, and sound

**Bioclimatic approach**  
for the building

**Natural light and air**  
approach

**OHS**

**OLIFANT SCHOOL**  
BUILDING AS A SECOND TEACHER

# BUILDING

## SAFETY AND SECURITY

The main purpose is to make sure that in the study process, the kids, parents, teachers and staff feel safe doing activities inside the building.

### CERTIFIED STRUCTURE

Certified structure planner  
Certified building contractor  
Quality control Construction Management team

### CCTV CAMERA

**100 CCTV** in the whole building  
The system is connected to the internet

### FIRE SAFETY

Two fire hydrants on each floor  
Two fire alarms on each floor  
One fire extinguisher in each room

### EMERGENCY EXIT

Two emergency exit option for each area  
Exit directly connected to open air area  
Stair pressurization fan to push back smoke

### SMART ACCESS

Intruder-free building  
Registered card only  
Authorized card holder

### SAFETY STANDARD

Non toxic material & paint  
Non-slippery flooring for wet areas

The Living World of Olifant

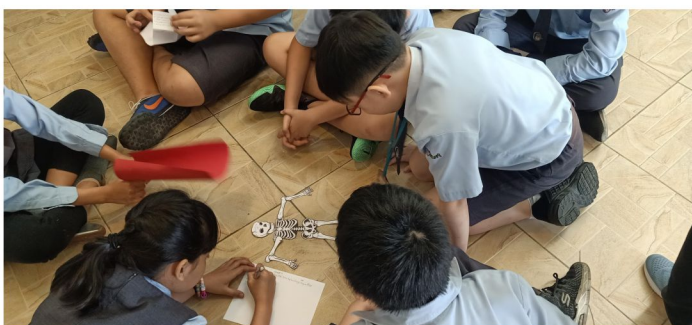

## GRADE 3 - THE LIVING WORLD OF OLIFANT

## GRADE 4 - ALUN-ALUN OLIFANT

## GRADE 5 - OLIFANT BACK TO NATURE

**BE MORE CREATIVE!**  
so you can be a good entrepreneur

GRADE 6 - ERA BARU DENGAN SEMANGAT 45

**Yes! In Grade 1, children get a chance to develop their courage and responsibility when they stay at school for a night and a day with teachers and friends.**

**In Grade 2, children get a chance to show and tell their favourite things such as books and toys in front of their parents or friends. At that time, children learn to be confident and tell a story in clear and complete sentences in Bahasa Indonesia or English. Very exciting!**

# ELEMENTARY SPECIAL PROGRAM

**Children in Grade 3 are enthusiastic, energetic, and brave. They get a chance to be more independent and responsible when they join in PERSARI.**

**More experience / more independence  
More experience / more confidence**

**In Grade 4, children learn to express their creativity by applying art and craft ideas and marketing their products in the Auction and Exhibition (Auxibition) activity. Awesome fun!**

By joining the immersion, children in Grade 5 get a chance to meet friends from another country, learn to take responsibility as they take care of themselves without parental guidance. They also learn to make a performance about Indonesian culture. Great enriching experience!

# ELEMENTARY FIELD TRIP

Our field trips are an opportunity  
for us to enter the world around us.  
We are READY to get more experiences.  
We are READY to colour the world!
