

Unity in Diversity

EAT FRESH
EAT SMART
EAT PARSLEY

WELCOME NOTE

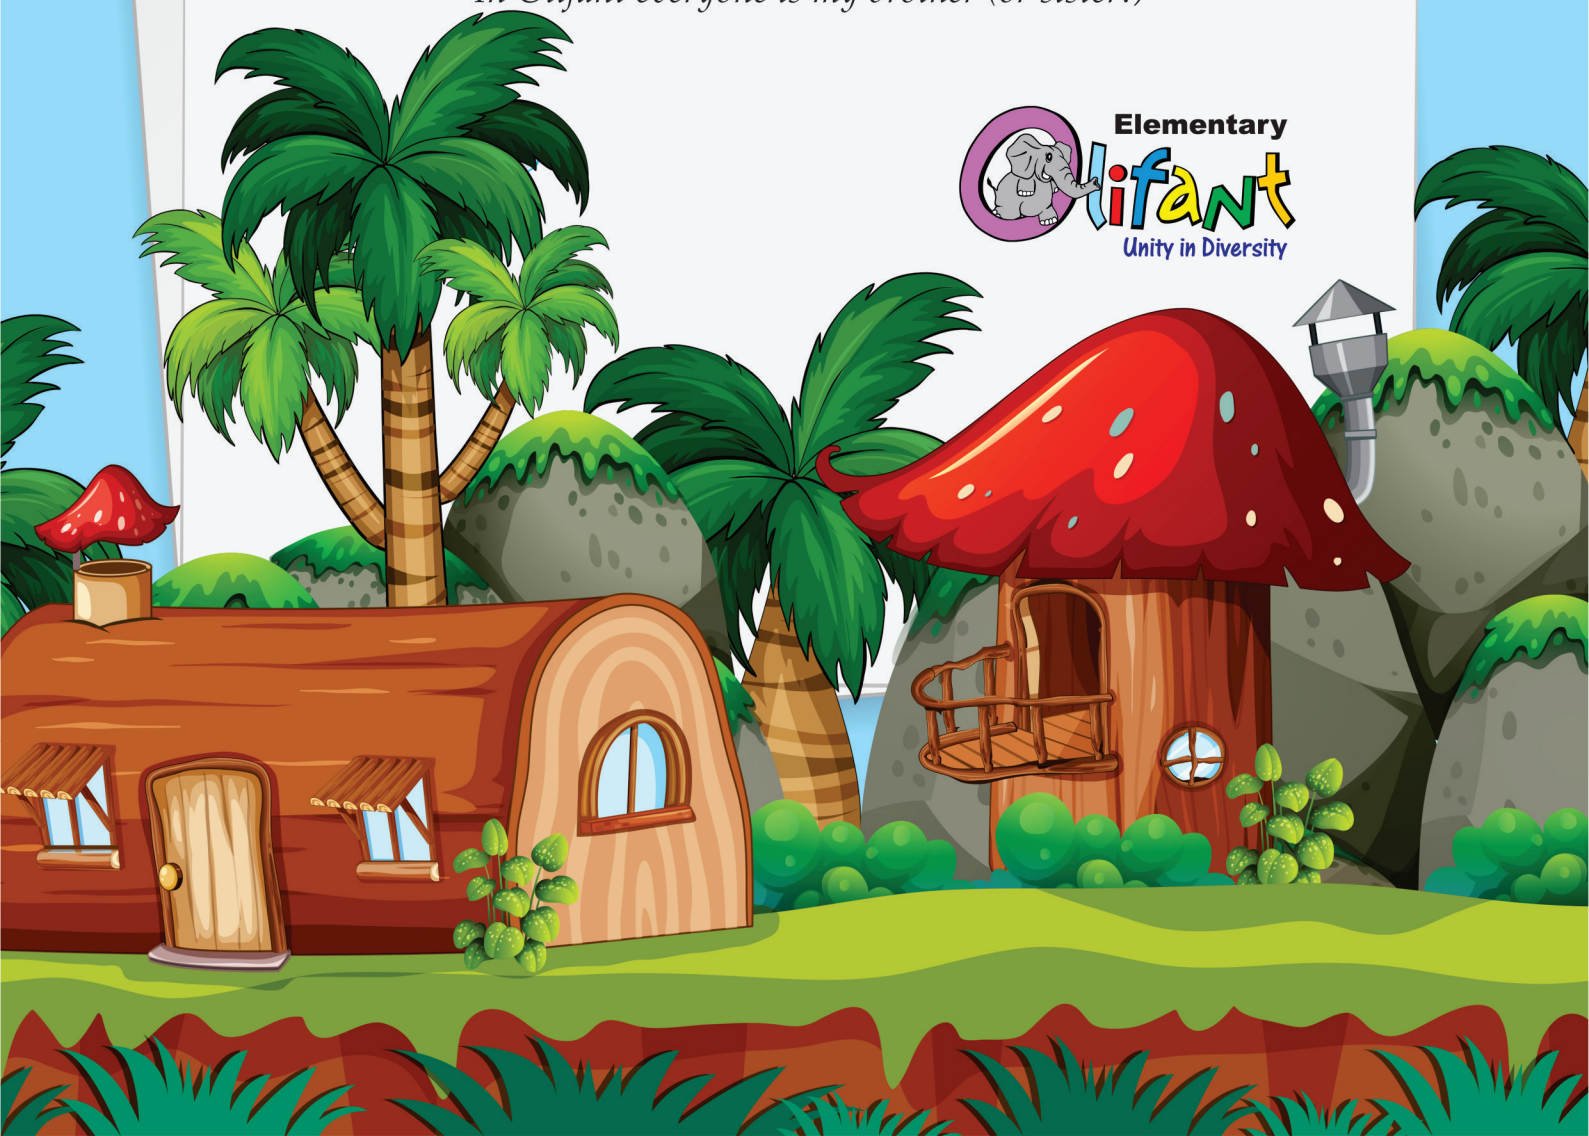

*'Unity in Diversity' is our school slogan
It's in our lives every day as we embrace our friends,
It's in our understanding as we try to make amends.*

*Our exciting umbrella activities make learning really fun
And we enjoy our field-trips when we go out in the sun*

*We go on immersion and make new friends from far
We learn the most important thing is just being who you are
We learn to be enterprising when we hold
our auxibition*

We learn to be more confident as we make presentations

*We learn that everyone is different and we all need each other
It makes us realize that
In Olifant everyone is my brother (or sister!)*

VISION

To be a pioneer which provides a modern learning environment for students so they are prepared to be global citizens

MISSION

- To facilitate students so they can develop their competencies in a holistic way and are able to collaborate in a global world with the spirit of sociopreneurship
- To become a catalyst for change in education and to make a positive impact in the community
- To provide an opportunity for educators to grow personally and professionally and make a contribution to modern education
- To collaborate with parents so that they can become full partners in educating and preparing their children to be global citizens

OLIFANT SYMBOL “ELEPHANT”

As an animal well-known for its cleverness and its ability to work well individually and collectively, the elephant was chosen as our logo. Olifant aims to prepare each child to compete in the current global world. Each child will be nurtured to be both an excellent individual worker and also learn to work in a team. These are two characteristics that lead to success.

OLIFANT MOTTO “UNITY IN DIVERSITY”

“Unity in Diversity” is not just a slogan to us. It's a way of life. As an Olifant Elementary student, even if we come from different backgrounds, beliefs systems, or have different ways of doing things, there are certain fundamental goals that should unify us all. When we realize this, we'll have greater strength. Once we decide to work with - and not against- each other, it starts to become clear that unity creates power.

Exploration

We enable children to discover new things, so they gain new knowledge and understanding through their practical daily activities.

Enrichment

This extra curricular program offers a variety of applied activities to enrich student learning experience in the arts, sports, culture and language, as well as science and technology.

Entrepreneurship

This allows children to build and to apply curiosity, perseverance, independence, compassion, and awareness within their surrounding environment.

The 3Es

INTERNATIONAL LEARNING METHOD

- An international perspective is not only about the language delivering the lesson but also in the methodology of learning.
- An “active learning” method is applied, giving children a chance to learn in a small class based on their style and space of learning and understanding.
- At Olifant we see the importance of using up-to-date-technology, including computer based learning and internet resources.
- We provide education with a strong emphasis on the importance of moral values and culturally - appropriate behaviour.
- At Olifant all religions are welcomed, all languages are accepted and all people of different colours and cultures are invited to enjoy and experience the Phenomenon of Olifant.

A N I N T E G R A T E D F U L L D A Y O F L E A R N I N G

Thematic, monthly activities are designed to integrate by applying several different subjects- math, science, language, arts- using moving classrooms and student-led learning. Learning challenges students to consider real issues- global or local or BOTH- and put their own education to work to address these problems. These learning days at school are festive, active and fun for all.

olifant SCHOOL

THE OLIFANT ROADMAP

BUILDING

AS A SECOND TEACHER

The main idea of the design was to enhance the learning experience from the building itself

flexibility in room connection
learn through colour, texture & sound

Bioclimatic approach for the building
Natural light and air approach

BUILDING

SAFETY AND SECURITY

The main purpose is to make sure that in the study process, the kids, parents, teachers and staff feel safe doing activities inside the building.

CERTIFIED STRUCTURE

Certified structure planner
Certified building contractor
Quality control Construction Management team

CCTV CAMERA

100 CCTV in the whole building
The system connected to the internet

FIRE SAFETY

Two fire hydrants on each floor
Two fire alarms on each floor
One fire extinguisher in each room

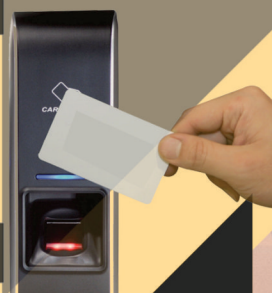

EMERGENCY EXIT

Two emergency exit option for each area
Exit directly connected to open air area
Stair pressurization fan to push back smoke

SMART ACCESS

Intruder-free building
Registered card only
Authorized card holder

SAFETY STANDARD

Non toxic material & paint
Non-slippery flooring for wet areas

Elementary Activities

OUR heroes

By Grade 6

My Hero
My Parents

Thank you Mom & Dad for
all of your help.

Elus

My mom has a bakery. My mom sometimes drives me to school and my mom makes me happy but sometimes makes me sad. My mom sometimes helps me in school and my mom always left the house.

My dad is in Japan now because my dad has work in Japan. My dad is from Japan and I don't know when my dad is going to come to Yogyakarta. I hope I can see my dad again.

Daisuke

MY HEROES

My heroes are my parents. They have a nice job and a nice life. They also really love me. They are nice people. My mom and dad can't really cook. My mom is an outdoor person and my dad prefers to be inside. Even though they are kind of different, they barely fight.

I choose my parents for my heroes because as I think again, I realize how much they care for me. My mom sacrificed her life to give birth to me. My dad helped me with many things. They taught me so many things. They worked really hard for me and my brothers.

I'm really grateful for them. I don't want them to be sick. I want them to be happy and healthy. I don't want them to be overworked. I really love them. We actually fight sometimes. We argue, we get mad. But I know that's because they love me. They don't want me to be hurt.

I don't know what can I do to repay them. I can't do anything. I can't do many things. All I can do is to make them proud. But I don't know how. I really hope I can make them proud when I grow up. Thank you for everything.

RAIZEL
GA

Gwen
GA

My Heroes

my heroes are my parents. Every day my mom cooks the best food for my breakfast, lunch, and my dinner. Also they work since morning until night. My parents also support me until now. They can make me happy and not have stress because I need to study everyday for UN. They really inspire me to be a better person. They're very generous to people. They taught me a lot such as manners, politeness, school subjects and many more things. Thank you mom and dad for everything. I love you.

-Gwen-

my parents my heroes

BY BEATRIX

My hero is my mom. My mom is a person who cares about others more than she cares about herself. She always wants others to be happy. She is also a very fun person. She is always there everytime I need someone to talk to about anything and everything. She helps me & others a lot. Other than that, she is also a successful person. She helps people live a healthy life for a living. She helps people all around the world. She is also very smart. Even though she is an introvert, she socializes easily with anybody and everybody. She always reminds me to do what I love and follow my dreams. She is fine with me getting a bad score on a test, because she says she knew that I did my best.

Another hero in my life is my dad. He is a very wise person. He gives me advices that has really helped me with my life journey so far. He is also a very fun person to joke with, but he can be serious when he needs to be. Even though he really cares about my academics, he doesn't pressure me to have the best scores. He does the same thing as my mom for a living. He has helped lots of people in his life. He works very hard for me and my brothers to have the best life we can have, but he doesn't spoil us so we can learn to save money for the future. He knows how to turn a stressful day to a relaxing day. He knows how to make me calm in every situation there is.

I am inspired by the things that they've done for the community and for their family, by how they never forget to thank their parents for everything that happened to them, by how they want to make everyone happy, by the sacrifices that they've made, by the support they give to others, when they needed the support, by the words of wisdom they've given to so many people, by the things they would do for others, and so much more. I want to be like them when I grow up and I want them to know that they can rely on others and that I'm sorry for my behaviour when I'm angry or upset, for the words that may have hurt your feelings, and for everything that I have done that may have made you feel uncomfortable or sad or upset or angry. I will try to become a better daughter for you.

My Parents

Heinell / 6A

My parents is my heroes because they gave me a birth, also they always work hard until night, even though their tired, And my mum want to drove me to extra lesson for UN even though she's tired, also my father always teach me for Try out, review or other

i love my mom and dad because they also love me, and my mom and dad always effort everything thats the best for me, sometimes my mom and dad make me sad or mad, but they are also human. I love my mom and dad.

my hero

Alwin 6A

I Love my mom and dad. I love them because my mom celebrates my birth on 9 July. I love my dad because he does search for money for us.

But for me my hero is my mom. She gave birth, my mom xceeds me carefully. I love her the most. She even teaches me.

Thank you mom and dad. for growing me since I was 1 until 12. I love you!

My Heroes

Samuel 6A

My heroes are my parents. I chose them because they care for me very much. They work very hard for me. They are very supportive.

My parents took care of me starting from 2007 to 2019. My parents gives me the necessary things for me to study. They also put me in a great school with kind friends and teachers

My Mom, My Hero

Greya

My mom, my hero indeed. My mom is a kind, loving, sensitive person. She has a big heart that she uses to help people. My mom is very attentive to her surroundings. She knows when a person is sad and comfort them. I love her because she does everything sincerely, she helps people without wanting anything in return. She loves me and my family without hoping for anything in return, she only wants the best for me even though it means that she needs to work harder. My mom is always patient. She doesn't hold grudges, and she inspires me everyday.

I am inspired by my mom not only because she is my mom but the role she plays in the community. My mom is a psychologist, she told me that she wanted to help through their problems. I think that's very selfless of her that she would help me and she always listens to me and tries to understand. My mom is very empathetic. She doesn't blame people when they make a mistake, instead she tries to see it from a different perspective and then tries to understand the situation.

I am also very proud of what she achieved since she founded Olifant School, she founded the school to improve education in Yogyakarta and even in Indonesia. I am forever proud of my mom and I love her very much. I want to be just like her and make her very proud someday.

My Hero, My Mom

By: Parnoenz ADSH

Class = 6A

Date = 2, May 2019

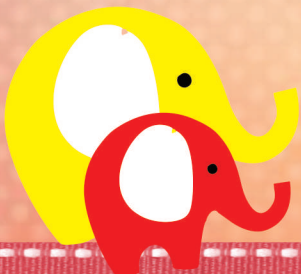

My mom is my hero because she gave birth to me and my sister and brother. She is an excellent chef. And she is nice to others. She also has time for family and time to work

She is a psychologist, so she can help me and my brother, what and sisters when we have a problem. She always knows best for us. My mom sometimes is very tired when we go home.

My Hero

By: Eagen 6A

Parents are my Heroes my mom feeds me since when i was young. my dad makes money that i spend on my toys, my food and others. Thank you mom and dad, you are my heroes.

OUR heroes

By Grade 6

My HERO | Mom and Dad

Dear mom, you have my hero since I was a baby. You've taught me all life advices. You've sacrificed a lot for me. You have done everything to make me happy. So I want to say Thank-You to my mom

Dear dad, you have worked so hard for the family. You've done everything you can to make us happy. You have take me ~~at~~ and picked me up from all my lessons and my school. You've made all of the family member happy. ~~and~~ So I also want to say Thankyou to my dad.

The conclusion is they both made a big impact on my life!!

-Ical-
6A

My Heroes

Bran 6B

My heroes are my father and mother. I chose them to be my heroes because they never give up, work hard and pray hard for me.

They cared for me since I was a baby until now. They sacrifice their lives for me.

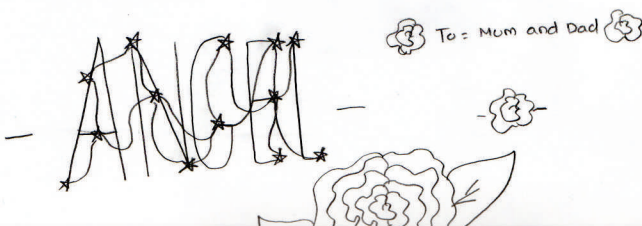

My father and mother want and will support me so that I can be a successful man. They also work very hard for me to live a good life and go to a school which has great facilities and kind teachers that are willing to guide me through my childhood.

my hero, my mum & dad

My hero is my mum and dad, a.k.a. my parents. Why? Because they guided me through my life. They loved me, and they cared for me. They taught me many important things in life. They taught me the good and bad.

I say, they are my heroes. They loved me so much, when I am sad, they became sad. When I fall, they pick me up. When I feel down, they cheer me up.

I thank my parents for the love they gave to me. I do not know how to repay. All I know is that they love me. Thank you for everything you have done, Mum and Dad! :)

MY HERO

My heroes are my parents. They sacrifice their time and life for me. My mom has taken care and taught me since I was very little. And my dad helped me by studying for the UN. They are always by my side to help me prepare for the UN. Not only for the UN, but they also teach me other subjects too. They also take me to school to help me by learning not just about studies, but also about my life skills. They always support me with my future goals and they also help me to reach them.

My parents inspired me to always do my best in the UN or in my life skills. They make me think that I always have to work hard and try my best in studying, so I can reach my future goals. They always support me, so I have to support them too. They always work hard for me, so I can live a happy life. They also believed in me that I can get a good score in the UN.

BY: TALITHA

My Hero | Parents

Rafael

My Parents are my all-time heroes. They have done so many things for me. They have sacrificed everything for me. They have done so many things with me. They have also spent so much time teaching me what's right and wrong.

I appreciate all the things that they have done for me. I'd like to say thank you very much for everything. All the time, all the sacrifices, all the will to teach me and all of their patience. Thank you parents, you are my heroes!

My hero, My Dad NIO

My dad is a hero to me because he protects me - since I was born and he is also helps me to train me at basketball. I like my father because he also makes me laugh and have a lot. Also we have fun together at playing basketball.

MY HERO

My hero is my mom. She has taken care of me since I was born. She works hard for me and my brothers. She never gives up and that inspires me.

My dad never took care of me and my brothers. So my mom is the one who has to take care of me. She worked hard for me and my brothers so we can go to school. Since she has to work for us, so it's hard for her to manage the time. She played a special role in my life. Thanks, mom :)

- Rayna

Putu
GB

my hero

My father - because he always works hard for me. Then my father wants all of the children to be successful in the future. My father is my hero. I want to be like father. He's always happy but in the other side he always works hard.

my father - he always protects the children, is truly my hero because he always guides me into a bright future. I want to be like father because he truly is the best father. My father is my inspiration. The end.

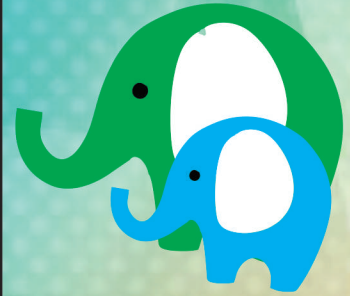

My Hero

In my life, I have two big heroes who are my mom and my dad. They're my heroes because they're always there for me when I need them. Yet it's not the only reason - these past 12 years of my life they've given me support in every hard situation or time. For example in my dance career, they've supported me since I first loved it.

The care and support that really melts my heart is when I don't feel well or when I was hospitalized. They were always there for me in the hospital, waiting for me, staying there 24/7 and even waking up in the middle of the night when I had a problem.

Each of my parents has their own special quality. My mom is the woman who gave birth to me and has taken care of me since I was born. My dad is special because he gives me all the support I need to live in this world. He taught me how to ride a bike, how to swim, and a lot more.

When my parents are together they're a whole perfect team that completes my life. For me, a hero is a person who helps you in any situation when you need it. My heroes are my parents.

Sofyan - My Heroes

6B

My heroes are my parents. They help me to be better.

My mom is 40 years old and my dad is 45 years old, even though they have 4 kids, but they worked so hard to make money.

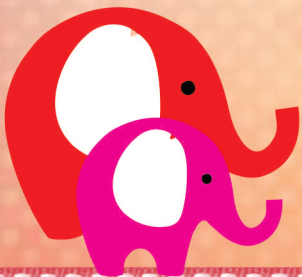

My parents sacrifice themselves to work, give me life, and help me to make my score. They loved me even though they're mad at me. I should thank to my parents. I love you, mom and dad.

My Hero My Parents

By: Letta 6B

My Parents are My heroes because they have sacrificed a lot of things for me. My mom took care of me since I was born until now. My dad has also done the same as my mom.

My Parents have inspired me to not give up. They inspired me a lot of things. I give up easily, so my parents always cheer me up. My mom and dad have many ways to cheer me up. I love you.

ELEMENTARY Special Program

SEE YOU TOMORROW, MOM DAD
(Lock in Gr 1)

Yes! In Grade 1, children get a chance to develop their courage and responsibility when they stay at school for a night and a day with teachers and friends. Through this activity, children learn to take care of their stuff, clean up after dinner time, and also join in all activities. WOW!

We to SHOW TELL (show and tell Gr 2)

In Grade 2, children get a chance to show and tell their favourite things such as books and toys in front of their parents or friends.

At that time, children learn to be confident and tell a story in clear and complete sentences in Bahasa Indonesia or English. Very exciting!

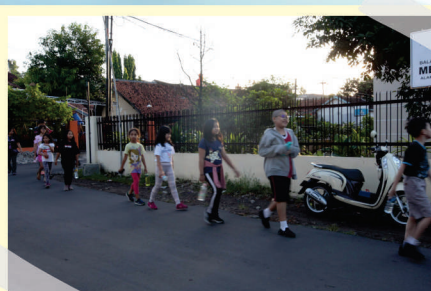

We ARE ENERGETIC.

WE ARE BRAVE, WE ARE INDEPENDENT" (PERSARI GR 3)

Children in Grade 3 are enthusiastic, energetic and brave. They get a chance to be more independent and responsible when they join in PERSARI.

More experience / more independence
More experience / more confidence

ELEMENTARY Special Program

**BE MORE CREATIVE,
SO YOU CAN BE A GOOD ENTREPRENEUR! (Auxibition Gr 4)**

In Grade 4, children learn to express their creativity by applying art and craft ideas and marketing their products in the Auction and Exhibition (Auxibition) activity. Awesome fun!

I DO MORE, I GET MORE (IMMERSION GR 5)

By joining the immersion, children in Grade 5 get a chance to meet friends from another country, learn to take responsibility as they take care of themselves without parental guidance. They also learn to make a performance about Indonesian culture. Great enriching experience!
